HOLOLENS STUDY

SEPTEMBER 17 - 28, DELTA BUILDING

A HoloLens research study will be conducted September 17th - 28th. The study will take one hour to complete. The user will be fitted with a HoloLens and will be asked to complete a series of tasks using the headset as their guide. If you are interested, please contact Travis Samford, a thesis graduate student in the Software Engineering department, for more information and to set up a time.

If you or any of your relatives have a history of seizures or epilepsy, consult a doctor before using HoloLens.

Any individuals needing special accommodations to participate in the study should contact Travis Samford at samfordt5763@uhcl.edu at least one week prior to the event to arrange for accommodation.
